carlier | gebauer, Berlin, is pleased to announce the group exhibition, *The Invisible Structure of the Universe*, including works by Antonio Asis, Cecilia Edefalk, Bracha Ettinger, Peter Klein, Jessica Rankin and Leonor Serrano Rivas.

The group exhibition *The Invisible Structure of the Universe* brings together artists whose interest lay in the sensorial experiences of work beyond what is presented to us through the constraints of representation. Transparency, texture, light and colour contribute to a vibratory, palpable and contemplative experience of what is not visible but rather felt and shared; a way of being in the world, transforming the experience into sensation.
